

Create Node Red service

Team ID	PNT2022TMID30692
Project Name	Smart waste management system for metropolitan cities

Step 1: Login into IBM CLOUD account

Step2: In catalog, search for node red application

The screenshot displays the IBM Cloud Catalog interface. At the top, a dark navigation bar includes the IBM Cloud logo, a search bar with the text "Search resources and products...", and user account information for "Abirami S's Account". Below the navigation bar, the main content area is titled "Catalog" and features a search bar with the query "nodered application". To the right of the search bar, there are links for "Sell on IBM Cloud" and "Catalog settings". The search results are displayed in a grid format, showing 24 products. The first four products are visible: "Connected Agile Platform" by TomorrowX, "Change Cloud™" by TomorrowX, "Delivery Innovation Platform (BASIC)" by TomorrowX, and "Delivery Innovation Platform (PREMIUM)" by TomorrowX. Each product card includes a logo, the product name, the provider, a brief description, and a list of supported server images and IBM Cloud Schematics. The interface also includes a sidebar with category filters and a "Type" filter at the bottom.

Connected Agile® Platform
By TomorrowX

Deploy customised digital solutions, reduce cost, automate documentation & create transparency to deliver better customer...

Server Images • IBM Cloud Schematics • Third party supported

Change Cloud™
By TomorrowX

For immediate and urgent changes to existing apps and SaaS platforms. Ideal for security, risk, user experience, compliance needs.

Server Images • IBM Cloud Schematics • Third party supported

Delivery Innovation Platform (BASIC)
By TomorrowX

Deploy customised digital solutions, reduce cost, automate documentation & create transparency to deliver better customer...

Server Images • IBM Cloud Schematics • Third party supported

Delivery Innovation Platform (PREMIUM)
By TomorrowX

Deploy customised digital solutions, reduce cost, automate documentation & create transparency to deliver better customer...

Server Images • IBM Cloud Schematics • Third party supported

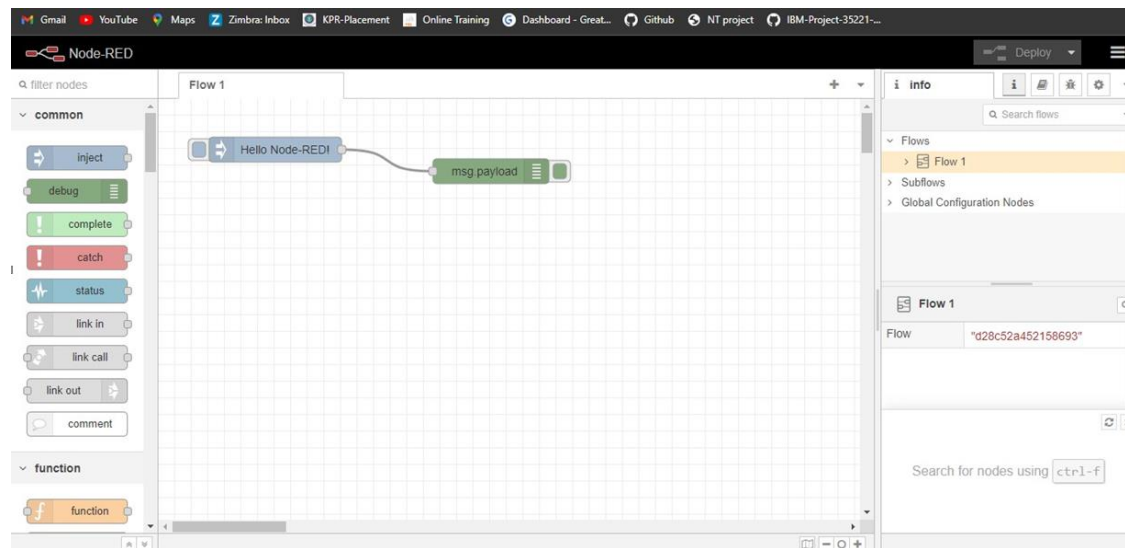

Type ⓘ ^

Step 3: Enter the project details and click on create

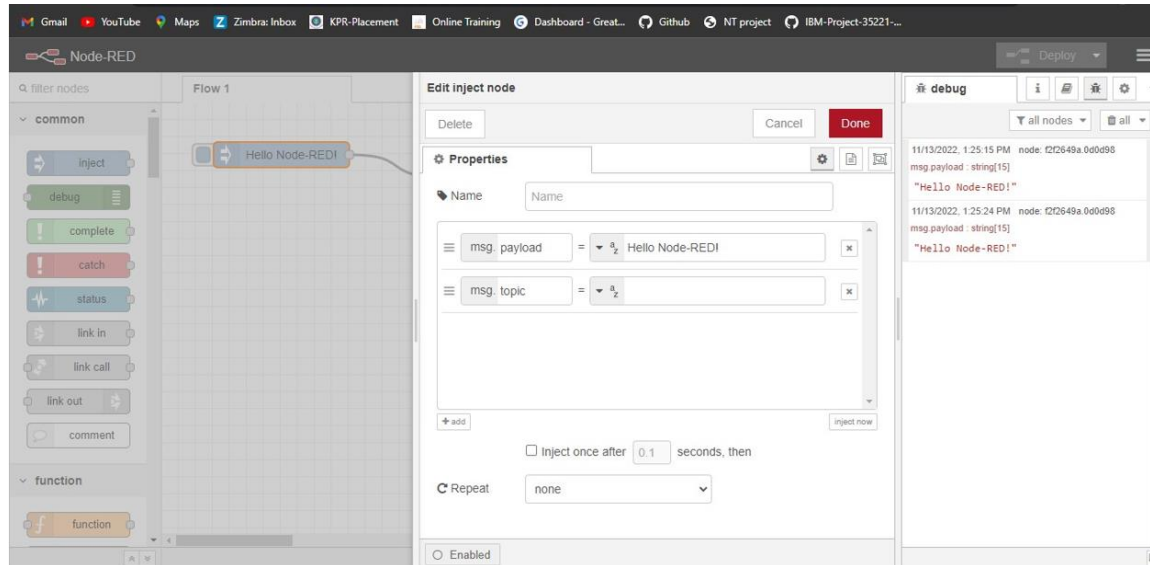

Step 4: click on deploy option and deploy

Step 5: Set up the environment for deploying and click on create

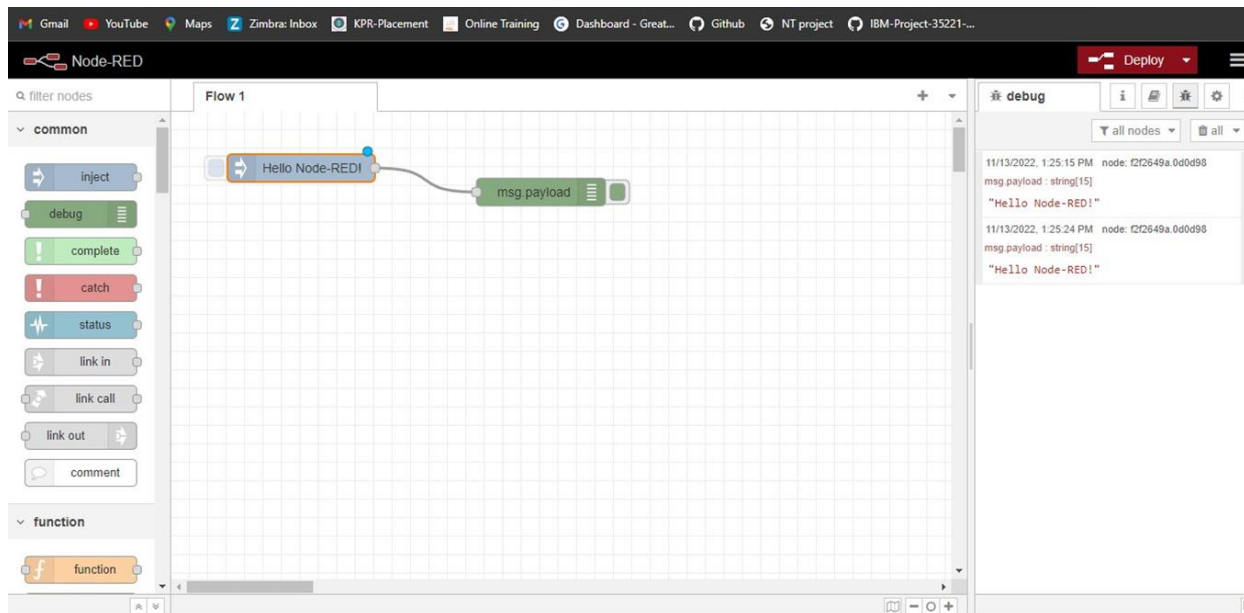

Step 6: Now drag and drop the nodes and connect nodes with IOT Watson platform

Step 7: setup the settings that connects node red service with Watson IOT

Step 8: Finally, output can be seen in node red service
